ELECTION FRAUDS IN MAINE.

HOW THE PINE TREE STATE WAS CARRIED BY REPUBLICANS THE PRICE OF VOTERS-THE MONEY FURNISHED AND WHO PAID IT OUT-INTENTIONATION IN LEWISTONS

BOSTON, Nov. 1, 1879. The second instalment of the Globe's investiga in into the alleged frauds in the election Maine shows first the manner in which it claimed that the towns of Boothbay and Southport, in Lincoln county, were carried, and, briefly told, the story is as follows:-In Boothoay Thomas Boyd, chairman of the Republican Com mittee, said that he had handled the money in his district, and that, with the exception of a few dollars-not over \$12-he invested the money in buying voters. He stated that there was \$100 used in his strict in all; but that one man nad \$10 and another \$15 which Mr. Boyd thought was not expended as judiciously as it might have been had he had the ndling of it. On the day of election and just prior he bought votes for from fifty cents to one dollar, and he could have bought very many on the after because there were many who were not only willing but anxious to sell. His money out, and he saw Mr. S. S. Marble, of Waldo boro, personally, and wrote to Mr. James G. Blaine, but both of these gentlemen thought that he had better try to get along with what money he had. Mr. Boyd said that by the purchase of votes the republican majority of Boothbay had been increased to eighty-six as against six of last year, and that it could have been increased to fully 150 if he had had all the money he wanted.

publican majority of Bootshey had been increased or compared as a general and fitting the had had all the monoy be wanted.

One wideness, which it was represented as needs to Bootshess, which it was represented as needs to be needed to b One scheme, which it was represented was used

Mills. The Globe reporter claims that he advised the gentlemen from Nobibeloro to hold over their clarges against the Representative elect until after the investigation had been concluded, and that they acted upon his advice.

Another gentleman veited by the reporter was Mr. William Herbort, of Bristol Falls, chairman of the Republican Committee in his district. It is claimed, that Herbort admitted that a great deal of money had been used in his district and that he had had the handling of it. Herbert stated that he saw Blaite personally, and was teld by him to see every man in his district and find out how he was going to vote—if he was a republican and weak-kneed, to see what would strengthen him; if he was a democrat or greenbacker, see what would induce him to vote the republican ticket and then to make up a statement of the amount of money which he needed for all expenses and forward at once. Mr. Herbert said that in his town a good many votes had to be bought, but that they cost less than in most other places. He said that he did not pay over \$2 for some of the worst of them, and that in a good many cases he got them for a day's work. He could not say exactly how many he did buy, but he was ready to get any one that had a price.

The Globe then relates the result of their investigation in Lewiston, and the following is a condensation of what is claimed. They allege a state of intimidation there greater than can be found elsewhere in the country, and claim that a year ago the Hon. William P. Frye caused to be circulated an agreement which bound the signers to vote the republican ticket, or at least for himself and Walicee White. It is claimed that over one hundred democratic iquor sellers signed this agreement, and the reward was released. The Globe representative claims that such a document was in existence, and that Ward then in prison for violation of the United States Revenue law. It is certain that such as document was in existence, and that Ward was released. The Globe office. The Globe also holds af

YALE'S ATHLETIC INTERESTS.

THE PLAN PROPOSED BY THE GRADUATES TO DEFEAT HARVARD-AN ADVISORY COMMITTEE TO BE APPOINTED.

NEW HAVEN, Conn., Nov 4, 1879. The plan originated by Yale graduates for the supervision of their undergraduate brethren, who are toiling as oarsmen, football kickers, and baseballists, for the glory jointly of Yale and the said athletes, is about to be submitted to the University for approval. A meeting was to have been held this evening, but owing to the unavoidable absence of the New York alumni, who are expected to advocate the idea, an adjournment until Friday evening next was agreed upon. At that time the novel idea will be considered at length. In the decision that may be arrived at, all past, present and future athletic Yalensians, and all mem-bers of other universities who may meet Yale in athletic competition are directly interested. Hence the coming discussion will have an importance equalling any move ever made by Yale un-dergraduates. Early in October the idea, as it dergraduates. Early in October the idea, as it was then crudely formulated, was given in the HERALD. The original proposition was some-what arbitrary. The New Haven graduates, who what arbitrary. The New Maven graduates, who were the first to advocate the plan, appeared at a University meeting called for the express pur-pose of hearing their statement, and asked that a graduate committee should be formed, with power to remove any candidate for athletic honors from his position. This was a virtual surrender of the authority of the captain of the crew, and also of the football and baseball captains. Put in this shape it was offensive, and, although the undergraduates appointed a committee to consuit with a graduate committee to ascertain just what was wanted, it was conceded that the undergraduates would not depart from the old plan for so arbitrary a position without earnest protests from many. power to remove any candidate tor athletic

a now house for the use of skaters in Central Park.

The old house has become unfit for use and is a disgrace to a city like New York. I hope you will publish this in behalf of all lovers of skating.

A LADY SKATER.

TICKET SPECULATORS.

TO THE EDITOR OF THE HERALD:-A good deal has been said at different times in the papers about annoyance of ticket speculators who ply their calling at the entrance of theatres. Last winter the Herallo was foremost in its efforts to rid
the amusement-going public of the speculator nuisance; but the men are still to be found at their old
haunts—they are merely outside the doors instead
of inside.

H. I. K.

A NOISY ENGINEER.

TO THE EDITOR OF THE HERALD:-My business is in Fifty-third street, by the Eighth avenue elevated railroad station, where my neighbors and I are terribly annoyed by one particular engineer. He invariably blows off steam while stopping at the station, making the most indecus and unearthly noise imaginable. No other engineer finds it necessary to do this, and why should he? We think the managers of the road should see to it that the nuisance be abated.

RECESS WANTED. TO THE EDITOR OF THE HERALD :-

Can you inform me why the Poard of Education is about to deprive the pupils of Grammar School No. 35 of their usual recess at half-past ten? For years it has been the practice in this school to allow the pupils about fitteen minutes' recess; but, as I understand, the Board of Education has now passed a rule forbidding the scholars to enjoy the short space of time allotted to them. If you will kindly look into this matter you will greatly oblige a PARENT.

TO THE EDITOR OF THE HERALD:-

The Erie Railway advertises a train to start from New York at twelve o'clock midnight for Sufferns, stopping at two cities and several villages. It is very balky, because it stops every mile to go back a little. Some people call it a "theatre train," because those who go to New York to the theatre can take this train for Patterson, Passaic and other stations, but it is really called so because it is a farce. Although it is usually made up of one smoking and one ladies' car, and is very light, it is the meanest and slowest train on the road, and is worse than an Arkamas witch. It does not start from Jersey City until halt-past twolve, though why nobody ever

knew. It crawls along, but why nobody ever knew. It reaches Paterson anywhere from half-past one to two o'clock in the morning. When people who pay full prices wish to get home to bed they are compelled to crawl over the meaclows. Why not make it a decent, fast train and attract many people from the suburbs to the theatres? There are enough people in the cars to make it a decent thing to have a train as last as any other. It is beastly, uncivilized and unbusiness-like.

PATERSON.

To the Editor of the Herald:Thesday evening, about seven o'clock, having taken the uptown car at Washington square, and, taken the uptown car at Washington square, and, being unable to put the exact fare in the bex, I offered the driver a ten cent silver piece, for which he returned me a package marked "10c." containing only a nickel. A complaint was immediately made to the driver, resulting in a most emphatic and persistent demand that my fare must be placed in the box and the deficiency seeled with the company. I insisted, however, that the matter be actiled where the error was committed, which resulted in my being ordered to leave the car. Being confident that the company was the possessor of my fare in their change box I refused to vacate or place my fare in the box. The car was stopped and the street blocked by an inquisitive and vocaterous crowd for a period or about ten minutes, when the driver relenting, upon my handing him my card and address (which he previously refused to accept) drove on. Is there no way of rectifying five-cent mistakes on the part of the Blecker Street Railroad Company except in spending ten cents in car tare to have five cents refunded, besides loss of time and annoyance? It occurs to the writer that the company had better either proclaim their infallibility or else have a more considerate spirit manifested on the part of their employés.

A. D. B. being unable to put the exact fare in the box, I of-
